

Declaration of decontamination

Declaration of decontamination of micro dispensing systems and components

The repair and/or maintenance of micro dispensing systems will only be carried out, if a correctly and completely declaration has been submitted and the system and/ or components has been cleaned by the customer.

If this is not the case, the micro dispensing system is only processed after the receipt of the required documents and cleaning. A cleaning by microdrop Technologies GmbH will not take place.

Devices or components that have been used in a radioactive environment or with biologically hazardous materials cannot be accepted for repair in order to avoid endangering the health of our employees.

This declaration must be completed and signed only by authorized personnel:
